

## EDUCATION SERVICES

We have a common educational project which also takes each school's identifying traits into account. It is applied in the schools through the intervention of a teaching staff comprised of educators and support professionals specialised in early childhood education.

### TEACHING STAFF

Our Municipal Preschools are staffed by a specialised team of professionals, with training and experience, to guarantee quality service for children and their families.

All staff members receive ongoing training to keep up-to-date and informed on the latest pedagogical innovations. Special emphasis is placed on pedagogical documentation and coeducation.

### PSYCHOPEDAGOGICAL ADVISING SERVICES (EAP)

### SCHOOL SOCIALWORK SERVICES (SIS)

Professional teams who work with educators to respond to diversity in this stage in accordance with the principles of inclusive education. They accompany and provide support to prevent, detect and advise teachers and families.

## COMPLEMENTARY SERVICES

Offered outside of school hours, their main goal is to support caregivers' efforts to balance work and family responsibilities.

### BEFORE- AND AFTER-SCHOOL CARE

Morning and afternoon. Small groups. Service contingent on demand. For more information, please contact individual schools directly.

### LUNCHROOM

All EBMs offer lunchroom services. Children eat lunch and rest at the same school. The service is supported by the teaching staff, as well as all necessary monitors.

Menus are tailored to all students' dietary needs. They include local and organic ingredients. Families are sent all information daily.

## FAMILY ASSOCIATIONS (AFA)

Families are the principal agents of childrearing, which is why their involvement in schools is indispensable.

Every Municipal Pr'eschool has a School Board and Family Association (AFA) to guarantee families' participation in the educational community.

At the Municipal Preschools, we put children at the centre of their own education. We view them as unique, active, creative and autonomous beings, capable of constructing their own learning with the educators' guidance in a friendly, stimulating, safe and welcoming setting.
